

Shena Meskimen – Outstanding Employee

The Outstanding Employee award is given to a woman who actively looks for ways to improve themselves at work, going above and beyond for their organization or company. This year, we honor **Shena Meskimen** of Lemman Property Management Company.

Shena is responsible for the management of 967 housing units in Tazewell County, leading a staff of 16 leasing agents, maintenance staff, and housekeepers as well as many more area contractors to ensure that each resident has a place they can call "Home." Last year she broke her own record, achieving a nearly 98% occupancy rate for her units.

Shena's position demands that she lead while maintaining flexibility, as each day presents some new need. Whether it is a maintenance issue, an urgent housing request, an unexpected inspection, or a resident's loss of income, Shena communicates effectively, shows empathy or firmness as needed, and multi-tasks like a pro. For example, she once went to a property late at night to handle a kitchen fire. She secured a hotel for the resident, helped the fire department to notify neighbors, and worked with the maintenance supervisor to mitigate additional damage to the property.

Shena is committed to finding the right home for, literally, many thousands of people and ensuring they have a good living experience in Tazewell County. While she is recognized regularly within the company for her accomplishments and can-do attitude, her employer is thrilled to nominate Shena Meskimen for the 2025 Outstanding Employee award so that she can be appreciated within the community she works so hard to serve. Congratulations Shena!
